New York, NY 10007-1866

**Re: National Pollutant Discharge Elimination System Permit (NJ0001279)  
FOIA Request for Complete Administrative Record**

To Whom It May Concern:

I am submitting a document request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. §552, et seq. This request concerns the United States Environmental Protection Agency's ("EPA's") files relating to the National Pollutant Discharge Elimination System's ("NPDES") administrative records and other Federal Water Pollution Control Act (Clean Water Act) ("FWPCA") permits and compliance documents associated with the address 600 Doremus Ave., Newark, NJ ("Site").<sup>1</sup> The NPDES's Permit ID number associated with the Site is NJ0001279.

Specifically, I request copies of any and all emails, correspondence, permit applications, permits, inspection reports, discharge monitoring reports and other documents for the period of January 1, 1950, to present, which relate to FWPCA compliance. Documents which are relevant to my request include but are not limited to: (1) the administrative record for NPDES Permit No. NJ0001279; and (2) compliance and implementation plans for EPA's Spill Prevention, Control and Countermeasure and the Facility Response Plan rules.

I would ask that you contact me at your earliest convenience to discuss arrangements for providing the requested documents. This firm will assume financial responsibility for any necessary copying and/or shipping charges. Your prompt attention to this matter is greatly appreciated.

---

<sup>1</sup> We note that over time the address for this property has changed. It formerly was known as 500 – 504 Doremus Ave., Newark, NJ. Owners/operators of the Site which may have been responsible for compliance, or which may have held permits include: (1) Kolker Chemical Corporation; (2) Vulcan Materials Company; (3) Inland Chemical Company; (4) McKesson EnviroSystems Company; (5) Safety-Kleen EnviroSystems Company; and/or (6) McKesson Corporation.
